

Welcome to the "Adding a Show Schedule to your ARM THE PIT calendar" tutorial. For this Show Schedule, we will be adding a radio show that airs Monday through Friday from 8AM to 9AM.

First, navigate to your Radio Station information page and click on SHOW SCHEDULE to get started.

The screenshot shows the ARM the PIT website interface. At the top left is the logo "ARM the PIT Underground Music Network". To the right is a banner image of silhouettes of people with their hands raised. Below the banner is the "NUCLER ROCK RADIO" title and social media share icons. A navigation menu includes "Home", "Artists", "Comps", "Directory", "Our Blog", "About Us", "Support Arm The Pit", and "Contact Us". A secondary menu includes "Radio Station", "What's New", "Show Schedule" (highlighted), "Meet Our DJs", "ATP Interviews", and "Update Account".

Below the navigation is a breadcrumb trail: "YOUR ARE HERE: | HOME | DIRECTORY | RADIO STATIONS |". On the right, there is a "STATION MANAGER: | UPDATE PAGE |" link and a "Select Language" dropdown menu. Below the dropdown is the text "Powered by Google Translate".

The main content area features a large graphic for "Nuclear Rock RADIO" with a glowing green radiation symbol in the center. Below the graphic, it says "Joined Arm The Pit June 16, 2013". To the right of the graphic is a table with the following information:

You can enter as much information as you prefer here. It would be preferable to enter information in the "Calendar Text" box, as well as the Popup or URL Link. The Calendar Text will appear as typed on your calendar. For our example, we are creating a show with DJ Sparklezzz, who will play Jazz and Funk. The show will air from 8am to 9am, Monday through Friday for the week of 9/16 to 9/20. If you click on the "Colors" button, a popup will appear allowing you to select the color of the background and text. Once you're finished entering the information, click on "Submit."

Once more you will see that the show is set to air from 9/16 to 9/20 from 8am to 9am. You can repeat this process until you have your day's schedule completely full. And that's all there is to it. If you find that there is a show change, or the show must be moved or canceled, simply click on the date of the show, and you will be presented with the edit/create page once again.

What if you have a weekly show on a specific day?

This is an easily set up show. This is what's called a **Periodic** show. To set up this type of event, let's go back to the create page:

[Create](#) **Duration Events Affecting September 2013**

Instead of selecting Duration, we will select PERIODIC. At this point, the creation page is slightly different.

The screenshot shows a web form titled "Create Periodic Event" for "September 2013". At the top, there is a navigation bar with "View" and "Calendar" tabs, and a row of days (s m t w h f s s m t w h f s s m t w h f s s m) with "August" and "October" links. Below this is a "Duration" link and a "Periodic" button. The form itself has a header "Create Periodic Event" and "September 2013".

Fields include:

- Calendar Text:** "DJ Weekend"
- Start Time am/pm:** "8:00" and "AM"
- End Time am/pm:** "9:00" and "AM"
- Draw Border:**
- Category:** "-----"
- Popup Text or URL link:** "www.ArmthePit.com"
- Generate Daily Events!**
- Colors:** "Default" (Background Color), "Default" (Text Color)
- From:** "2013", "September", "1"
- Until:** "2014", "September", "1"
- How to Repeat:**
 - Date(s):** Every Month, Every Year
 - Repeat by Day of Week:** Repeat by Day of Week
 - Day of Week:** "Saturday"
 - Repeat:** "Every Week"

At the bottom, there are "Submit", "Reset", "Cancel", and "Help" buttons. A note states: "Note: Ctrl Key permits multiple selections from 'Date(s)' and 'Day of Week' list boxes."

As you can see, you now have a date range that can run into YEARS rather than days. Let's set up our show to run from 9/21/2013 to 9/20/2014, every Saturday from 8AM to 9AM. Select a weekly schedule by clicking the "REPEAT BY DAY OF WEEK" radio button. At this point you can select your day. We'll select Saturday. Under the REPEAT box, we can select when the show will air on a weekly basis. We'll select "Every Week."

Once you've input your schedule information, the system works just like it did previously.

Now we see that the DJ WeekendGuy show will air from 8am to 9am every Saturday from September 21st 2013 to September 20th, 2014. Now on your monthly calendar, the show will appear every Saturday like so:
